2024-135-Senate-08	**Guidelines for offering a common course by different teachers**

When a common course is offered by more than one faculty member, there has to be a coordination committee to look into the coverage of syllabus, setting of a question paper, and evaluation guidelines. However, as per the existing rules faculty have the flexibility to set different question papers and carry out independent evaluation. However, there will be only one question paper during the makeup/re-end examinations. Students are complaining that the faculty who taught the course has not completed the entire syllabus.

The item is deferred for discussion in the next Senate.
