About GIAN Courses
MHRD, Govt. of India has launched an innovative program titled ‘Global Initiative of Academic Networks’ (GIAN) in Higher Education, in order to garner the best international experience into our system. As a part of this, internationally renowned Academicians and Scientists are invited to augment the country’s academic resources, accelerate the pace of quality reforms and elevate India’s scientific and technological capacity to global excellence.

About NIT Warangal and Warangal
National Institute of Technology Warangal, formerly known as Regional Engineering College was established in 1959. Over the years it has developed into a premier institute of higher learning and is ranked among the top technical education institutions in India. There are 14 Departments offering eight undergraduate and 29 post-graduate programmes besides doctoral programmes. About 5000 students across the country and about 500 international students pursue their education in the campus. It is a fully residential campus sprawling over 250 acres with excellent infrastructure in the form of state of the art library, seminar halls, guest houses and laboratories.

Warangal is the second largest city of the new state of Telangana. It is situated at a distance of 140 km from the state capital Hyderabad (Nearest Airport). It is well connected by Rail (Kazipet Junction is two km away and Warangal Station is 12 km away) and by Road (NH 202). Warangal is renowned for its rich historical and cultural heritage. It was the seat of erstwhile Kakatiya dynasty. It is a place of tourist attraction with a number of historical monuments like Thousand Pillars Temple, Warangal Fort, Bhadrakali Temple, Ramappa Temple and Laknavaram Lake.

10 Day GIAN Course
Designing and Developing Flipped Classroom e-Learning Instruction for Engineering and Science Education

9th May - 18th May 2016

Call for Registration and Participation

International Faculty
Prof. Barry Sponder
Professor of Instructional Technology & Educational Leadership
Central Connecticut State University USA

Local Coordinators
Prof. I. Ajit Kumar Reddy
Dr. K. Madhavi

Organized by
Centre for Educational Technology
National Institute of Technology
WARANGAL – 506 004
Telangana State, INDIA
Overview of the Course
Flipped classroom model of instruction is a learner-centered pedagogy that uses e-learning methods. Here, the standard lecture and homework elements are reversed. The instructional content is created by teachers and delivered electronically in various forms to students while class time is spent on problem solving and concept development through discussions. This helps students to develop higher order learning objectives.

In this course, the participants will learn to plan, design and develop student centric course material that facilitates e-learning. They would be trained to use modern e-learning tools, technologies and learning management systems through on-hand experiences. They will develop multimedia material and evaluate its efficacy and receive expert feedback.

Course Contents
*(i) Understanding the flipped classroom model of instruction
(ii) Principles of e-learning and their application to flipping instruction
(iii) Use of new interactive and collaborative tools to enhance student learning
(iv) Designing and developing e-learning materials through hands-on activities
(v) Utilization of on-line resources in creating course materials and making them accessible using emerging technologies
(vi) Instructional delivery systems: Moodle and other Learning Management Systems
(vii) Creating e-learning material and testing their suitability and effectiveness

Who Can Participate?
Registration is open to:
(i) Faculty members working in Engineering, Technology, Science, Arts, Education and Management disciplines in higher education institutions/universities
(ii) Persons from Training Organizations / Research & Development Organizations / Consultancy firms / Industries who are interested in practicing new training, teaching / learning techniques
(iii) Students and Research Scholars aspiring to be in teaching or training profession.

How to Register?
Stage-1: Web (Portal) Registration:
Visit GIAN Website at the link: http://www.gian.iitkgp.ac.in/GREGN/index and create login User ID and Password. Fill up the blank registration form and do web registration by paying Rs 500/- online through Net Banking /Debit /Credit card. This provides him/her with life time registration to enroll in any number of the GIAN courses offered.

Stage-2: Course Registration (Through GIAN Portal): Log in to the GIAN portal with the user ID and password created. Click on ‘Course Registration’ option given at the top of the registration form. Select the Course titled “Designing and Developing Flipped Classroom, e-Learning Instruction For Engineering and Science Education” from the list and click on ‘Save’ option. Confirm your registration by Clicking on ‘Confirm Course’.
