Dear Students,

In the wake of the unfortunate outbreak of Novel Covid-19 virus and on the directions and advisory of the Government of India, the institute was constrained to suspend the academic activities since March 14, 2020. The students were advised to go home. Since the situation has not improved, it is decided to advance the summer vacation of the institute and reopen the institute tentatively after the vacation on 7<sup>th</sup> June, 2020. The academic calendar has been revised and the revised calendar is enclosed. The remaining part of the classwork will be conducted after the vacation followed by the examinations. It is hoped that the situation will return back to normalcy and we will be able to commence the next academic year on August 12, 2020.

It is not the best of the times and we all understand the gravity of the situation. Let us all work together to make up what is lost and work towards the betterment of our institute and the country. The formal notice and information will be placed on the official website of the institute. All are advised to rely on the information published on the institute webpage only and keep away from rumours.

Sd./- Director
