

NATIONAL INSTITUTE OF TECHNOLOGY WARANGAL

Center for Continuing Education & Department of Computer Science & Engg

ONLINE FACULTY DEVELOPMENT PROGRAMME (FDP) ON

Python Programming for Beginners using Artificial Intelligence Machine Learning & Deep Learning

1st November 2021-5th November 2021

About NIT Warangal

National Institute of Technology Warangal, formerly known as Regional Engineering College was established in 1959. Over the years it has developed into a premier institute of higher learning and is ranked among the top technical education institutions in India. There are 13 Departments offering eight undergraduate and 32 post-graduate programmes besides doctoral programmes. About 5000 students across the country and about 500 international students study in the campus. It is a fully residential campus sprawling over 250 acres with excellent infrastructure, state of the art library, seminar halls guest house and laboratory.

About Center for Continuing Education

The Center for Continuing Education NIT Warangal organizes FDPs/Training programmes/Seminars/Workshops etc., in the frontier areas of Science, Engineering, Technology, Management, Humanities, Social Science and Socially relevant themes on self-financing basis in three different modes: (i) At NIT Warangal (ii) At NIT Warangal in collaboration with other organizations/Engineering Colleges / Institutes iii) By NIT Warangal Faculty at the Host Organization/Institute.

About Department of Computer Science & Engg

The Department of Computer Science and Engineering (CSE) offers B.Tech course in CSE, M.Tech courses in CSE, Information Security (IS) and Master of Computer Applications (MCA). The Department has experienced faculty with good publications and well-established laboratories. The Department has liaison with reputed industries and R&D organizations like Microsoft, IBM, Oracle, Accenture, Infosys, TCS, EMC2, C-DAC, Motorola, NIC, Sun Micro Systems, SPSS and tie up with IISc in certain areas. Department conducts various sponsored programmes like GIAN, International and national conferences throughout the year.

Course Objectives

Upon the completion of the training programme the participants/trainee can understand/ gain knowledge in solving the real world problems in AI Machine learning and deep learning applications

- Latest tools and techniques in AI Machine learning and deep learning.
- Research oriented problem solving in AI machine learning and deep learning.

Course Content

- Basics of AI, ML and DL, Supervised and unsupervised Algorithms.
- Working with data preprocessing and data visualization using python.
- Supervised learning like regression, Unsupervised Machine learning algorithms like SVM, KNN etc.
- Deep learning techniques like single and multi layer perceptron, LSTM.
- Introduction to AI, machine learning tools and techniques, Simple and multiple linear regression.
- Neural networks and multilayer perceptron, Back propagation CNN applications.
- Heuristic and metaheuristic techniques in AI.
- Advanced research applications in Machine and deep learning.

The Sessions will be handled by the experts From **IITs/NITs/ Central University and Professor from U. S. Universities.**

How to Apply

Interested candidates can apply online by clicking below link
