FACULTY DEVELOPMENT PROGRAMME (FDP) on
Statistics and data analysis for engineers and researchers
27th May - 1st June, 2019
Organized by
Electronics & ICT Academy
(Sponsored by Ministry of Electronics and Information Technology (MEITY), GOI)
National Institute of Technology, Warangal – 506004, Telangana State, INDIA

Preamble
"Electronics & ICT Academy” was set up at NIT Warangal with financial assistance from MeitY, GoI. The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Goa, Puducherry and Andaman & Nicobar Islands. This academy role is to offer faculty development programs in standardized courses and emerging areas of Electronics, Information Communication Technologies, training & consultancy services for Industry, Curriculum development for Industry, CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

This faculty development program (FDP) is devoted to addressing the need to enhance the knowledge about the latest technologies pertaining to Statistics and data analysis through Hands-on Experience.

About NIT Warangal
National Institute of Technology, Warangal is the first among 17 REC’s setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institute imparting technical education of a very high standard leading to the B.Tech degrees in various branches of engineering. M.Tech and Ph.D programs in various specializations. All B. Tech and M. Tech programmes of NIT Warangal are NBA accredited.

About the course
Statistics is rapidly emerging to play a key role in research; engineering, biomedical, economical in recent years. This workshop is designed to cover the concepts of basic and advanced statistical methods applicable to Researchers, Faculty and Students. It is intended to stimulate interest in the minds of researchers and to help them enhance the quality of their research processes. Many statisticians use quantitative abilities, statistical knowledge and communication skills to work on numerous challenging problems in biostatistics and allied areas. This exciting and versatile discipline is contributing to all fields of medical research and evidence-based healthcare and nutrition.

Module: 1
- Expert lectures on Statistics and usages
- Various methods in Statistics
- Applications of Statistics
- Data analysis
- Emerging trends in data handling

Module: 2
- Correlation, regression, multiple regression and logistic regression
- ANOVA and MANOVA
- Generalized linear models
- Markov models
- Non parametric approaches
- Factor Analysis
- Cluster Analysis
- Meta-analysis applications in Medicine/Bioinformatics
- Challenges of theoretical statistics
- Usage of R and SPSS.
